

PRE-TREATMENT INSTRUCTIONS FOR ROOT CANAL TREATMENT AND RETREATMENT

Thank you for contacting our office and welcome to our practice.

We encourage you to visit our website at www.endoreston.com, as it contains information you may find helpful.

Please follow these guidelines in preparation for your visit:

- Eat breakfast or lunch before your appointment to ensure a normal blood glucose level. Do not drink caffeinated drinks, like regular coffee.
- Take your routine medications, including aspirin therapy, if applicable. However, do not take medication for discomfort (i.e., ibuprofen, Advil, Motrin, Aleve, etc.) prior to the first visit because it may mask symptoms and hinder diagnosis.
- If you require prophylactic antibiotics before dental visits for a prosthetic heart valve or orthopedic prosthesis (artificial hip, knee, elbow, etc.), please call our office for instructions.
- Our office hours are **8:00am-6:00pm on Monday-Friday** and **10:00am-12:00pm on Saturday**. Occasionally, last minute emergency patients can delay our schedule, so please allow a little extra time for your appointment. We value your time and will try to keep you updated when delays occur.
- **All patients under the age of 18 must be accompanied on each visit by their parent or legal guardian.**

We look forward to being of service to you. If you have any questions, please don't hesitate to call us at 703-429-9926 or e-mail: info@endoreston.com.
